

Foster Futura Safety Flexo Plate Cutter Series-2

BEVEL CUT

STRAIGHT CUT

CUTS SAFELY & ACCURATELY

Designed specifically for cutting flexo plates, the Keencut Futura Safety Flexo Plate Cutter will pay for itself by eliminating manual errors, saving time and money! No more hand cutting that result in gaps between splices that have to be filled and taped risking stress points that can release during a press run.

AVAILABLE IN 5 CUT SIZES FOR
NARROW & WIDE WEB PRINTERS

Model #	Cut Size
61906	18"
61908	32"
61912	50"
61916	64"

UNIQUE DESIGN FEATURES MAKE IT EASY TO CUT FLEXO PLATES QUICKLY

- Cutting head has two blade holders
 - New 5° undercut allows operators to cut plates flat, ensuring the ends fit perfectly together when the plate is mounted onto the cylinder
 - Bevel edge for plates mounted onto cylinders
- New site line strip eliminates the guess work for operators lining up plate crop marks with the straight edge cut line
- Steel Bearing and track system smoothly cuts through Flexo plates
- Ergonomic cutting head for both right and left handed users reduces RSI and makes it easy to use over and over again.

HERE'S WHAT CUSTOMERS ARE SAYING:

"The Futura cuts with ultimate precision time-after-time. Our highly skilled team can trim plates with superior accuracy, quickly and safely in ½ the time. Thank you Foster and Keencut!"

– Kev Crowley,
Production Manager
VT Graphics,
Yeaton, PA

VT Graphics is an industry-leader that supplies production-ready mounts to help reduce production lead times and get your project on-press faster.
