

Gorilla Gripper for Rigid Substrates

When another pair of hands isn't available to grip, lift or carry large sheet and board materials, the Gorilla Gripper can help. This simple device also minimizes or eliminates damage to the edges and corners of large sheets of rigid substrates, saving your shop money and frustration.

Simply slip the Gorilla Gripper over the center of the panel and lift. Carry panels with less fatigue, increased control and unobstructed field of vision. Reduce potential injuries to fingers, hands, wrists and backs.

This do-it-yourself tool can lift large sheets of these substrates from 0" to 3/4" thick:

- Acrylic
- Aluminum Composite
- Drywall
- Glass
- MDF
- Plywood
- PVC
